## Refrigerated LTL Routing Guide

### Your research for carriers starts here!

**D**eveloped as a resource for those who ship refrigerated less-than-truckload shipments within the U.S. and Canada, companies listed in this directory have indicated they perform the services described. Use the Origin and Destination sections to determine carriers with traffic between specific state pairs. Once potential carriers have been selected, screen more carefully using the information in the Carrier Index to contact the company directly to determine if it can handle your particular load.

This guide indicates service in general terms only. Carriers cannot be held specifically to the information listed here.

Asset-based carriers who missed being listed in this guide should contact Refrigerated Transporter to be included in the next LTL Guide. There is no charge for the basic listings for asset-based carriers. (Companies can also upgrade their listings to include web and email addresses.) Non-asset-based companies that advertise with RT are also included.

Brought to you by:  
**Refrigerated  
Transporter**

Serving cold chain professionals involved in the transport,  
storage and distribution of temperature-controlled products.
